ABOUT KSD

With a team of proficient and accomplished anglers in the industry, KSD's vision is to increase the joy and spirit of fishing by giving anglers the finest fishing hooks that is made with rigid and modern standards of quality and innovation. A motto that has since formed the creation of the Trident hooks.

KSD hooks is the embodiment of decades of heartache due to dropped fish and the critique of existing hooks in the market. These crucial gaps had to be addressed and we took it upon ourselves to develop hooks that you can have 100% faith in.

We know how it feels to lose a fish mid-fight and the doubts that then arise; Did I set the hook hard enough? Did I not maintain enough tension during the fight? We have done everything in our strength to help you convert those missed catches into memorable fishing sessions.

Simply put: KSD is committed to producing the most reliable hooks on the market.

TREBLE HOOKS

Apex Treble

The KSD APEX TREBLE is a universal treble hook designed for all-round lure fishing applications. It features a 3X gauge O'Shaughnessy-style shank crafted from high-quality stainless steel. The hook is finished with a corrosion-resistant coating that enhances both durability and smoothness during hook-ups. Combined with its chemically sharpened needle point, it delivers exceptional penetration power. Perfectly suited for all lure types — from hard bodies to soft plastics — the APEX TREBLE offers strength, precision, and reliability with every strike.

Ripper 5X

KSD303

The KSD RIPPER features a true 5X strong high carbon steel wide gap treble hook with a short shank and reinforced bend. It has a bright-tin finish and is chemically sharpened for utmost penetration power. The RIPPER's true 5X strength hook was designed to handle hard fighting species that is also light in weight, making it one of if not the lightest 5X hook available. With its universal shank profile, it is suitable from light tackle to heavy offshore casting. There's a hook for every game.

The KSD Trident treble features a 4X strong hook that has a unique ‘V’ shaped angled shank. Constructed with high grade carbon steel that has a 4X strong gauge for the best holding power. Our patented ‘V’ shaped angled bend features a straight shank that is proven for definite hook-ups as well as reinforcing the overall structural strength of the hook’s performance.

The fundamentally perfect design of the aggressive bend, width of its gap, depth of its throat, and length of its point to bend has been precisely calculated to hold onto fish till it is landed, such as with fish that are prone to aerial acrobatic tendencies. It has a bright-tin finish and has a chemically sharpened hook point for utmost penetration power. The Trident is a perfect all-round hook for various styles of lure fishing.
